

WE ARE HIRING

AVIONICS ENGINEER

National Airways Corporation is expanding its Contracts Division and seeking a dynamic, skilled, and highly motivated Avionics Engineer to join our elite Maintenance Team. This is an exciting opportunity for an external candidate to apply their expertise in a challenging, global environment.

*Position - Avionics Engineer
Department - Contracts Division (Maintenance Team)
Location - Lanseria (Base)
Reports To - Team Leader, Avionics*

Date Posted: 2 December 2025

Closing Date: 10 December 2025

To be considered for this critical role, applicants must meet the following minimum criteria:

- Valid SACAA licences for Category W1 (Electrical), W2 (Radio), and W3 (Instruments).
- Willingness and ability to travel extensively for contracts lasting between 6 to 9 weeks at a time.
- Preparedness to travel and work in high-risk/remote areas.
- Possession of all valid travel documents, including a current passport, police clearance certificate, and yellow fever card.

The successful candidate will demonstrate a strong commitment to safety and technical excellence, possessing the following personal attributes:

- Highly safety conscious, self-disciplined, and works with extreme precision, accuracy, and caution.
- Ability to approach problems of considerable complexity with an impartial, objective, and practical attitude.
- A co-operative and group-oriented team player, yet fully capable of working independently and taking full responsibility for their actions.
- Communicates tactfully and diplomatically, knowing when and how to call on the support of the Team Leader/Supervisor.
- Possesses excellent stress management, adapting quickly and productively to new situations, unexpected circumstances, and pressure.
