

HELICOPTER DIVISION

Helicopter Sales

NAC's Helicopter Sales division is the independent representative for Bell Helicopters in 13 African countries and a dealer for Robinson Helicopters. We also offer a wide range of pre-owned helicopters and have been the leading helicopter sales company on the African continent for decades.

Helicopter Operations and Charter

The helicopter operations division is based at the state-of-the-art Ultimate Heliport in Midrand. NAC operates an extensive fleet of executive helicopters for corporate and other VIP charters.

Charters can be arranged to VIP and corporate venues, game lodges or out-of-reach destinations. If you

are not sure where to go, NAC's expert Helicopter Operations team can make some excellent recommendations.

NAC provides specialist assistance in applications such as fire-fighting, construction hoisting and cargo slinging. Our pilots have significant slinging and lifting experience in both the military and civilian sectors and our Helicopter Operations division has the equipment needed for a variety of slinging operations.

Our crews also offer extensive expertise in game capture and counting, high value cargo delivery, geological surveys and mine and powerline inspections.

The photographic and film production sector need look no further than NAC. We have worked with the industry's top professionals

for many years and can assist with the hiring of equipment designed for specific use on helicopters.

On the security front, NAC works exclusively for Netstar, the premier vehicle tracking specialist that uses helicopters to track and recover stolen vehicles.

NAC has partnered with Ultimate Helicopters in a new, state-of-the-art, privately owned heliport in Johannesburg. The new heliport is centrally located on the N1 Freeway in Midrand, opposite the Mall of Africa, with convenient and easy access from multiple directions. Being developed in two phases, the completed first phase on 32 hectares of land comprises 3100 square meters of hangars, 2800 square meters of office space, including a terminal building, VIP lounge facilities, a restaurant, fuel farm, EASA standard FATO (final

and relax as you take in the spectacular wonders of the fairest Cape in a safe and professional environment.

Helicopter Maintenance

NAC's helicopter maintenance facility at Rand Airport undertakes complete factory authorised maintenance and overhaul services for Bell and Robinson helicopters. This is the only Bell Helicopter Customer Service Facility in Southern Africa and the only Rolls Royce Model 250 engine Authorised Maintenance Centre in Africa, positioning NAC to provide a full range of world class overhaul, repair and maintenance services with parts support, at competitive prices. NAC also represents Able Engineering with regards to parts repair and approved alternate parts supply.

NAC has an exclusive supply agreement for Lord Corporation's range of helicopter Elastomeric products and distributes the Aeronautical Accessories range of products.

Technical Training

NAC's technical training facility at Rand Airport offers a first year theoretical and practical syllabus for the Aircraft Maintenance Mechanic trade, demonstrating the group's dedication to the aviation industry and to the development of essential skills in South Africa. On successful completion of the first year's basic training, students must complete a further 18 months to two years of on-the-job training in line with requirements from both TETA and the SACAA.

approach and take off area) and parking pads for up to 16 helicopters.

Emergency Medical Services

Aero-medical emergency services can mean the difference between life and death. NAC operates several helicopters equipped with state-of-the-art EMS equipment that can be hired for patient transport or as standby for sporting and other events.

With over 10 years' experience in the field, NAC Helicopters is an emergency and mission-critical helicopter provider. We operate within a reinforced culture of safety, competency and commitment to offer superior service delivery to our customers.

With an impeccable safety and delivery record, we have become one of the most trusted and dependable operators in the Southern African industry. Our commitment to working seamlessly with our customers has earned us the reputation of a partner, not a supplier.

Helicopter Pilot Training

NAC's helicopter pilot training is conducted at the Ultimate Heliport and Rand Airport. The school has extensive

experience in training from ab-initio to advanced commercial qualifications and our graduates have gone on to become captains with helicopter operators across Africa and the world. Our programmes include Instrument Rating, Instructors Rating, Conversion Training, Game Capture and Cull Ratings, External Load Rating, and all types of advanced pilot training.

NAC Helicopters Cape Town

Based at the V&A Waterfront, NAC Helicopters Cape Town is the market leader in coastal sightseeing tours. Our team offers personal, tailor-made helicopter charters for tourists, aviation enthusiasts and business executives, departing from either the iconic V&A Waterfront, Cape Town International Airport or other bespoke areas. Sit back

NAC is an ISO 9001:2015 accredited company and was the world's first Flight Safety Foundation BARS Audited Gold Standard operator.
