

VACANCY AVAILABLE

Position : **Manager, Parts Warehouse**
Department : Helicopter Maintenance
Location : Rand Airport
Reporting To : General Manager Helicopter Maintenance

Please note that we will be considering INTERNAL and EXTERNAL applications for this position.

KEY PERFORMANCE AREAS

- Oversee the day-to-day operations of the parts warehouse, ensuring efficient and accurate receipt, storage and distribution of parts
- Monitor the timeliness and accuracy of fulfilling customer orders and requests. This includes measuring order processing time, on-time delivery, and order accuracy.
- Ensure compliance with aviation regulations, safety standards, manufacturer requirements as well as company policies and procedures
- Maintaining the Sales Register, this includes verifying that sales orders are properly recorded, invoiced, and reconciled.
- Effective inventory management to meet customer demand while minimizing excess inventory and stockouts.
- Initiate regular physical stock counts and reconcile to system and records to ensure accuracy.
- Monitor and control operating costs related to store management activities, including labour, overhead, and procurement expenses.
- Supervise warehouse staff, including hiring, training, mentoring and performance measurements.
- Gather feedback from customers regarding their satisfaction with store management processes, responsiveness to inquiries, and overall service experience.

REQUIREMENTS

- Grade 12
- Excellent leadership and communication skills, with the ability to effectively manage a team and collaborate across departments
- Minimum of 5 years proven experience in warehouse management, preferably in the aviation industry
- Computer literacy is essential.
- In depth understanding of aviation parts and components, including part numbers, specifications, exchange procedures and documentation requirements
- Knowledge of INCOTERMS would be advantages.
- Experience with computerized inventory and bin location systems is essential, experience on AMASIS and Navision would be advantageous.
- Solid understanding and experience in regulatory compliance with regards to parts import and exports (SARS, VAT, SACAA)
- Knowledge and requirements of HAZARDOUS materials storage and shipping essential.
- Must be familiar with quality, health and safety procedures.
- Must be prepared to work outside of standard working hours, in support of operational requirements.
- Must have knowledge of shelf-life limitations and management thereof as per industry norms.
- Qualification in First Aid, Fire Fighting and HAZMAT would be an advantage.
- Understanding of the freight industry and its workings would be an advantage.

PERSONAL ATTRIBUTES AND SKILLS

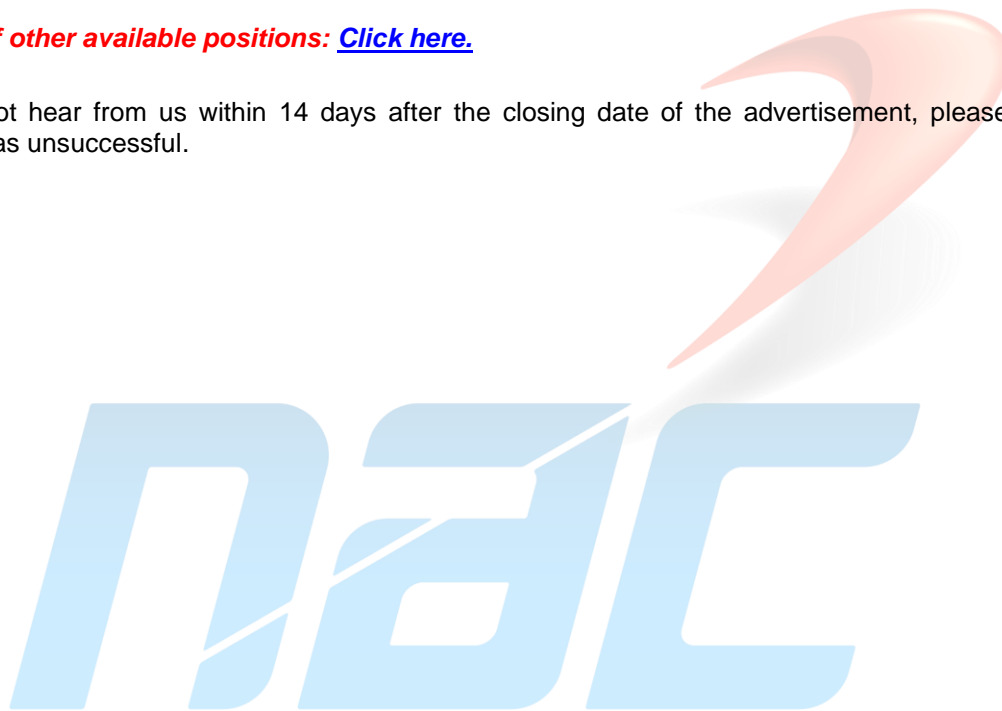

- Professional and mature person who is able to multitask effectively.
- Strong leader with excellent communication and negotiations skills.
- Pay careful attention to detail
- Able to work independently and with very little supervision
- Must be a methodical worker and be able to work well under pressure
- Must be able to use own initiative
- Deadline driven and understands the sense of urgency.
- Strong organisational skills
- Able to travel by car for work purposes and tolerate traffic congestion
