2026 ROBINSON R44 RAVEN II | SN 14966

2026 ROBINSON R44 RAVEN II | SN 14966

DESCRIPTION

The Robinson R44 Raven II is a versatile light utility helicopter widely used for pilot training, aerial surveillance, and charter operations. It's also a popular choice among private owners thanks to its reliability, smooth handling, and cost-effective performance.

Equipped with a more powerful fuel-injected engine, the R44 Raven II offers improved payload capacity, allowing it to carry more passengers or equipment with ease. It also delivers enhanced performance at higher altitudes and achieves faster cruising speeds compared to the earlier Robinson R44 Raven I, making it a preferred option for a wide range of missions.

AIRFRAME

Year of Manufacture	2026
Aircraft Model	Robinson R44 Raven II
Serial Number	14966
Time Since New	4 Hours

ENGINE

Lycoming IO-540-AE1A5

Time Since New	4 Hours
